DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This building located on the south side of West Salisbury Street is a two part house covered with asbestos shingle siding. In its entirety the house has six bays with a central cross gable added. The major portion of the building is the east three bays, possibly of log construction. The three west bays appear to be an addition. Windows have two over two pane sashes with flat topped architraves. The roof is covered with standing seam sheet metal. The major renovations to this building would appear to date from the early 20th century. The actual structure however, may be much older.
